

Space Island One episode guide

	Prod #	Title	Synopsis
1	101	Message From Keeler - SEASON 1	Recently recruited to the science deck of space station Unity Paula Hernandez is eager to know why her predecessor Mikhail Kristof Keeler left. Her companions are reluctant to discuss the situation.
2	102	All the News That Fits	Photojournalist Claudia Lang is granted a week aboard Unity to record life on the space station but she soon discovers a far better story.
3	103	Quarantine	Lyle and the science deck persuade Kathryn to allow them to analyze rocks from Mars in an unmanned craft aboard Unity. They discover a spore that consumes acrylic-based materials - of which Unity is mostly composed.
4	104	Rogue Satellite	Ground control instructs the crew to retrieve and repair a malfunctioning weather satellite.
5	105	Dangerous Liason	With Lyle's help child protégé Alexi Stepiak is onboard investigating the Kuiper Belt a body of object circling Pluto. Dr. Carl Sutter his travelling companion believes The Unity Corporation is a waste of time and plots its demise.
6	106	Crew Test	Consultants are hired to spend a week evaluating the crew their interpersonal relationships and professional abilities.
7	107	Barrier of Second Attention, The	Shannon recovers an odd triangular object near the space station that is emitting a weak but regular radio signal. Carbon dating indicates it has been adrift for thousands of years.
8	108	Sarcophagus	Hawkspur an unscrupulous entrepreneur is using Unity to perform space funerals. His operation proves to be a scam - the coffins are empty - and Kathryn threatens to blow the whistle on him.
9	109	Spring Fever	Shannon has command of the station while Kathryn is on leave. The crew's attentions are focused elsewhere and Lyle attributes it to spring fever.
10	110	Third Man, The	The Clementine returns to Unity from its asteroid exploration mission after an onboard failure almost destroys it.
11	111	Awakening	Shannon suffers a stroke while runing Unity when other crew members take part in an experiment
12	112	Nemesis	The Unity crew are shadowed by a piece of abandoned 1980s Star Wars technology - an antimissile device designed to lurk in space and knock out hostile intercontinental warheads.
13	113	Child is Born, A	As the crew prepares for the arrival of the first child born in space life goes on aboard Unity. The arrival of Harry's baby girl soon captures everyone's attention and brings harmony to the crew.
14	201	Unfinished Business - SEASON 2	A satellite maintenance shuttle docks with Unity on the pretext of needing to make repairs. Its commander's real motivation seems to be to persuade Paula Hernandez to run away with him.
15	202	Split Allegiances	Harry Eschenbach's promotion to chief science officer splits the crew into two factions but Lyle the loser in the reshuffle is preoccupied with the extra-ordinary decision of the maintenance robots to clone themselves.
16	203	Winter Kills	Sub zero temperatures prevail on Unity when a rogue maintenance robot takes control of the habitation system.
17	204	A Place in the Sun	Two stowaways from a lunar base seek refuge on Unity pretending to conduct a protest against unsafe working conditions. They turn out to be industrial spies with vital information on how to get back to Earth.
18	205	Lost Property	A satellite maintenance shuttle collides with Unity. Three men aboard the shuttle are killed on impact and the Unity crew has the upsetting task of recovering their bodies.
19	206	Mayfly	Professor Jarvis a computer scientist visits Unity to install CALCUM a new breed of computer with a more human response to problem solving. When the machine turns from a friend into a threat the crew has to shut it down.
20	207	Not In My Backyard	A mysterious illness breaks out on board Unity.
21	208	Abandoned	While Visiting an abandoned space platform the crew discovers the sole survivor of a cult suicide.
22	209	Silver Bullet	Paula Hernandez starts human trials on a cancer treatment by injecting herself with a dangerous serum.
23	210	Anniversary	Celebrations of Unity's 15th year in orbit are soured by bad news about Harry's daughter.
24	211	Lost in Space	Visiting scientist Dr. Gail Mulloy successfully concludes trials on the drug she has developed to combat space osteoporosis. She now considers remaining on Unity.
25	212	Money Makes the World Go Around	Unity's serious financial trouble is nothing compared to the personal problems being encountered by its crew members.
26	213	Trouble in Paradise	An exploding fuel cell sets off a series of malfunctions on board Unity that leaves two men on a station about to tumble out of orbit.
